1. Make dressing

Halve **onion** and thinly slice. Pat **roasted red peppers** dry and thinly slice, if necessary. In a large bowl, whisk together **2 tablespoons each of vinegar and oil**, **¼ teaspoon salt**, and **a few grinds of pepper**. Transfer **2 tablespoons of the dressing** to a medium bowl.

Add **¼ cup of the onions** to large bowl with dressing; set aside for step 5.

2. Sauté veggies

Heat **1 tablespoon oil** in a medium nonstick skillet over medium-high. Add **remaining onions**; season with **salt** and **pepper**. Cook, stirring occasionally, until tender and browned in spots, 3–5 minutes. Add **roasted peppers** and **1 cup spinach**; cook until spinach is just wilted, about 1 minute. Transfer to medium bowl with **reserved dressing**. Wipe out skillet; reserve for step 4.

3. Assemble panini

Cut or shred **chicken** into bite-size pieces. Add to bowl with **sautéed veggies** along with **cheese** and toss gently to combine; season to taste with **salt** and **pepper**.

Split **buns** and lightly brush all over with **oil**. Divide **chicken-veggie mixture** between bottom buns; top with top buns.

4. Cook panini

Heat **2 teaspoons oil** in reserved skillet over medium heat. Add **panini**; place a heavy skillet (preferably cast-iron) over top and press down. Cook until **cheese** starts to melt and panini are golden-brown on the bottom, 2–3 minutes. Flip and cook, pressing down with skillet, 2–3 minutes more (watch closely as they can burn easily).

5. Finish & serve

Add **remaining spinach** to large bowl with **dressed onions**; toss to coat.

Serve **roasted red pepper panini** with **spinach salad** alongside. Enjoy!

6. Did you know?

Ordering Dinnerly is not only more convenient, but it also reduces your carbon footprint. A study from the University of Michigan found that cooking with meal kits (including packaging) generates a much lower carbon footprint than purchasing the same ingredients at the grocery store. Considering every step in the process, average greenhouse gas emissions are ⅓ lower when cooking with meal kits.
