1. Prep oven & bundt pan

Preheat oven to 350°F with a rack in the center.

Using **butter or oil**, grease a 10–15 cup bundt pan, being sure to coat all the crevices. Dust with **2 teaspoons self-rising flour**, tapping out excess.

2. Make batter

In a large bowl, whisk together **granulated sugar**, ½ **teaspoon salt**, and **remaining flour**. Add **yogurt**, **2 eggs**, ¾ **cup water**, ½ **cup oil**, and **1 teaspoon vanilla**, then whisk until just combined (it's ok if lumpy; do not over mix).

3. Bake cake

Scrape **batter** into prepared pan. Bake on center oven rack until a toothpick inserted into the center comes out clean, 40–50 minutes. Remove **cake** from oven; carefully run a knife between cake and pan all around the edge.

4. Remove cake

Place pan upside down on a cooling rack. If **cake** doesn't drop onto rack, let rest 5–10 minutes upside down, then very gently shake pan back and forth to loosen and remove it.

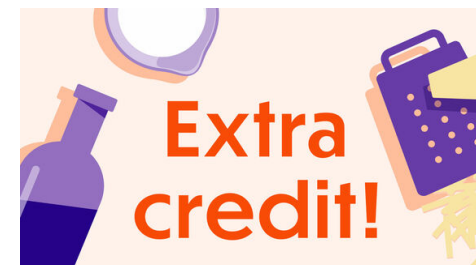

Let cake cool completely, about 1 hour.

5. Make glaze & serve

In a small skillet, melt **2 tablespoons butter** over medium heat. Remove from heat; whisk in **raspberry powder** until smooth. In a medium bowl, combine **confectioners sugar** and **2 tablespoons water**. Stir in **butter mixture**. Thin with **1 teaspoon water** at a time until **glaze** drops from whisk in thick ribbons.

Pour **glaze** over **cooled cake** and top with **sprinkles**. Enjoy!

6. Alternative pans

If you don't have a bundt pan, fill 12 lined cupcake tins with batter and bake 25–27 minutes. Or butter and flour an 8-inch cake pan and cook about 25 minutes. Ice as directed.
